### Kelley Sutenfield/Tony Romano – AMONG THE

**STARS:** It's been quite a while since I reviewed Kelly's jazz vocals ([issue # 100](#)); Tony's guitar sounds very nice with the standards Kelly sings (though it did seem like there was a fair amount of "echo" in the recording... on the other hand, that seemed to create a feeling of intimacy between the singer and the guitarist). Tony's guitar intro on "[People Will Say We're In Love](#)" is excellent, and it's clear that this duo enjoys playing together. My pick for favorite of the ten tunes offered up was the beautiful "[Try Your Wings](#)"... a jazz vocal lover's dream, to be sure! I give Kelley and Tony a **HIGHLY RECOMMENDED**, with an "EQ" (energy quotient) rating of 4.96. Get more information at [Kelley's website](#). *Rotcod Zzaj*
